Protection and cash back with the Return of Premium rider

Simple Term with Vitality is one of the only instant-decision life insurance products to offer coverage up to \$500,000. With the optional ROP rider³, it also gives clients the opportunity to earn cash value throughout the life of their policy — up to 75% of premiums paid.

Available on 25- and 30-year term durations, the ROP rider's cash value will grow until the end of the level-term period, where it will provide up to 75% cash back of total premiums paid. And if clients exit their policy before the end of the level-term period, they will still be eligible to receive a cash-back benefit.

How the ROP rider works

Your clients choose a term duration of either **25 or 30 years** (with the ROP rider), and pay a level premium throughout the entire term period

The policy earns **cash value** throughout the policy life cycle, based on the premiums paid

At the end of the term period, up to **75% of premiums will be returned**

Clients who exit their policy before the end of the level-term period will **still be eligible to receive a cash-back benefit**

The policy's **death benefit passes to the clients' beneficiary(ies)**, generally income-tax free⁵

How do clients earn the Apple Watch reward with Vitality PLUS?

John Hancock is excited to offer Simple Term with Vitality policy owners the opportunity to earn Apple Watch. (for an initial \$25, plus tax)⁷. Here is a brief overview of how the Apple Watch program works:

- When your clients earn 500 Vitality Points from Standard and Advanced Workouts each month, they pay nothing for their Apple Watch. Otherwise, their payments will be based on the watch they choose and the number of points they earn
- There are two great options for your clients to choose from, the Apple Watch Series 6 with a 40 mm case or the Apple Watch SE with a 40 mm case. Additional fees will apply if your clients choose upgraded watch features like GPS, cellular, case sizes, and certain bands and case materials
- The more points they earn, the less they'll pay for their Apple Watch. See the table below for detailed payment information

Series 6 (40 mm case)

SE (40 mm case)

Note: Monthly charges vary based on the number of Vitality Points your clients earn and the Apple Watch model they choose.

[← More questions](#)

1. Insurance policies and/or associated riders and features may not be available in all states. Some riders may have additional fees and expenses associated with them. • 2. Policy issuance is not guaranteed as any life insurance purchase is subject to completion of an application, including health questions, and underwriting approval. John Hancock may conduct a post-issue quality review to verify the accuracy of the information in the application received. This may include — but is not limited to — a request for medical records. A policy may be rescinded if the review of post-issue information reveals a material misrepresentation. • 3. The Return of Premium (ROP) rider allows for a return of a portion of the premiums at the end of the level term period or earlier if the policy is terminated prior to that point. The ROP benefit will generally begin by year 4 and the percentage of premiums available to be returned increases gradually over the term duration to a maximum of 75% at the end of the level term period. The ROP Rider is only available for term durations 25 and 30. There is an additional cost for this rider. • 4. Certain aspects of Aspire may change over time. No legal, tax or accounting advice can be given by John Hancock, its agents, employees or licensed agents. Prospective purchasers should consult their professional tax advisor for details. • 6.
